

## Our progressive systems offer the best combination of performance, energy efficiency, and value

MCS has been in business for over 50 years promoting, applying, and selling commercial and industrial HVAC equipment. Our sales engineers are experts in the application of the products that we sell. Along with our support staff, we focus on customer service, project tracking and after sales support to provide the best possible outcomes for our customers.

The business philosophy of MCS is quite simple. We consider ourselves to be customer representatives as well as manufacturer's representatives. Our customers are the designers and builders of buildings and industrial processes. Our goal is to provide technical assistance, project control accuracy— from order to installation and beyond—as well as competent, prompt service when required. We endeavor to represent manufacturers of the highest quality equipment whose business doctrine coincides with ours.

Please visit our website ([www.mcsmms.com](http://www.mcsmms.com)) for up to date information from our manufacturers, project success stories, and listings of current products that we have in stock. Contact us to set up sales or service seminars on any of the products that we market. Modular Mechanical Service (our sister company) provides factory authorized service and start-up for all the manufacturers that we represent.

	Chillers	Coils/Fan Coils	Roof Top Systems
	Air Handlers	Cold Climate Heat Pump Systems	Unit Ventilators
	VRV	Mini Splits (Single/Multi-Zone)	WS Heat Pumps
	Furnaces	Light Commercial Roof Top Units	Condensing Units
	Unitary Condensers & Heat Pumps		

Custom air handling

Cooling towers, evaporative condensers

Boiler products - pulse, tubeless, thermal fluid heaters

Customized packaged central plants

Side access filter housings and high efficiency filtration

Innovative equipment for hot water

Chillers, high density rack & closed loop cooling

Pool Dehumidifiers & Conditioning

Steam and hot water boilers

Modular, heat recovery, and custom chillers

Air and water source heat

Exhaust Systems

Air to air heat recovery

Geothermal/specialty heat pump systems

Commercial & industrial chimney and exhaust systems

Air to air heat recovery

VAV terminal products and fan coils, air handling

Commercial and industrial Coils

Ventilation, heating/cooling, and climate optimization

Packaged terminal AC units, water source heat pumps

Variable frequency drives

Dedicated outdoor air systems (DOAS)

Terminal heat transfer units - fin tube radiation

Vertical/Horizontal Unit Ventilators, Ceiling Cassettes, Make-Up Air System, Duct Furnaces

Balancing valves, valve packages, hose kits

Fans, utility sets, and gravity vents

Air to air heat recovery
